

Alumni Feedback Analysis (2022-2023)

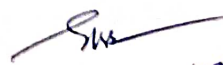

Alumni feedback holds immense significance for the National Assessment and Accreditation Council (NAAC) as it serves as a valuable tool for assessing the quality, relevance, and impact of education provided by institutions. By soliciting feedback from former students, NAAC gains insights into various aspects of institutional performance, including teaching methodologies, infrastructure, learning resources, and support services. This feedback helps identify strengths to be highlighted and areas needing improvement, enabling targeted interventions for enhancing educational quality. Furthermore, alumni feedback contributes to fostering stakeholder engagement, promoting accountability, and ensuring transparency in the accreditation process. Ultimately, it plays a pivotal role in the continuous improvement and excellence of higher education institutions across the country.

Interpretations

The survey responses provide valuable insights into various aspects of the institution as perceived by alumni, including infrastructure, teaching, opportunities for growth, industry exposure, extracurricular activities, faculty, amenities like the canteen and library, office staff, and education resources. Overall, the responses indicate a mixed perception across different categories. Teaching & Learning received the highest ratings, with 58% rating it as Excellent and 25% as Very Good, suggesting a strong positive perception in this area. However, Infrastructure and Lab facilities, although rated positively, have room for improvement, with only 25% rating it as Excellent and 50% as Good. Similarly, while the library received a 100% Excellent rating, other facilities such as the canteen and education resources require attention, with low ratings of 8% and 17% respectively. Notably, the Satisfactory and Average categories received no ratings, indicating that respondents either had no negative perceptions about college amenities.

Action Taken Report

Based on this feedback, several actions can be taken:

- i. **Infrastructure and Lab facilities:** Conduct a thorough assessment to identify areas for improvement and invest in upgrading facilities to meet the expectations of the stakeholders.
- ii. **Canteen facility:** Investigate the reasons for the low rating and take corrective measures such as improving food quality, variety, and overall ambiance.
- iii. **Education resources:** Address the concerns raised by respondents by enhancing resources such as digital platforms, textbooks, and learning materials to support students' academic needs effectively.
- iv. **Industry-academia exposure:** Strengthen collaborations with industries to provide more opportunities for students to engage in real-world projects, internships, and industry visits.
- v. **Office staff:** Implement training programs to enhance the skills and service quality of office staff, ensuring better support and assistance for students and faculty.

Regular monitoring and feedback collection should be incorporated to assess the effectiveness of these actions and ensure continuous improvement in all areas of concern.
